

A Life to Live Home Care's Purpose is to assist individuals in their home through creative solutions to everyday problems and managing the stress of care coordination so clients don't have to. We truly want to redesign Home Care by getting back to the basics and aiding individuals to thrive in life, not only to exist. We hope to provide peace of mind to families and loved ones so they can focus on their role in the individual's life.

Welcome to Your Life...

A Life to Live Home Care was established in 2024 by York County Native, **Daniel Hawkes**. Daniel has worked in healthcare for the last 25 years. He started working as a Certified Nursing Assistant, working with Long Term and Rehab Residents in skilled nursing facilities. Daniel transitioned into Home Care after realizing he didn't feel exceptional care could be provided in that setting.

As a caregiver he was able to make a difference in individual's lives. Daniel was asked to move into the office as a Scheduling Coordinator, he then moved up through the Agency. He was trained in all Operations of the business. In mid-2024 Daniel decided it was time to start an agency that was more aligned with his morals and values.

Our agency may be new, but our management has more than 25 years' experience. The main difference we have that others don't is the hands on experience all the way up to ownership.
